The new ETS 40KVA Switch Mode Amplifier
One 19 inch rack with 4 power modules
replaces the old valve amplifier

Amplifier Upgrade at Kidde Graviner

One of the last Derritron Valve amplifiers in the country has finally found it's way to the skip, all 3.5 tons and 7 cubic metres of it. To replace the 36KVA monster we fitted a 40KVA ETS switch mode amplifier. The 100V output voltage was a perfect match for the Derritron VP600 shaker. DC and DG supplies and safety interlocks were integrated in the amplifier. The old valve amplifier has given more than 20 years excellent service but it finally became too expensive to repair. The new amp., being so small, has given our customer their room back and the switch mode technology gives an approximate 20KVA power saving.

SPECIAL OFFER

ILLUSTRATION ONLY

ACCELEROMETER AND ACCESSORIES

includes
1.5 metre accelerometer cable
Microdot to BNC cable adapter Various fixing adapters
Pot of wax Accelerometer probe

REFURBISHED SYSTEMS FOR SALE

LDS 954 / MPA/ BEARING SLIP TABLE	40KN
DERRITRON VP700LT / NEW 24KVA AMP.	20KN
VP85/TW3/OIL FILM SLIP TABLE	5.7KN
LDS 650 / PA1000, INSTRUMENTS	1.6KN
DERRITRON VP30/1500WT	3.0KN
LDS V724 / MPA2 AMPLIFIER	5.3KN

POA for above items. All systems refurbished with 6 months parts and labour warranty

CLEARANCE ITEMS

L.E. SCO1000 sine controller	£325 (£700)
EE1592 sine controller	£400 (£740)
VP180 head expander 400m x 400m	£395
LDS 963 Armature	£1,950
LDS 963 used DC coil set (encap.)	£1,750

Clearance items are sold without warranty, the price in brackets includes an ISO 9000 calibration.
